Mucks! Games Introduces a Unique Interactive Bedtime Experience for iOS:

## The Bear

### A Story from the World of Gra

Mucks! Games is proud to announce the upcoming launch of **The Bear - A Story from the World of Gra** on iOS devices on April 16th. Recently nominated for the German Computer Games Award in the categories of **Best Story** and **Best Graphic Design**, this handcrafted indie title promises to captivate players of all ages with its heartfelt narrative and stunning visuals.

In **The Bear** players lead a charming duo, the bear and the little one, on an adventure across the atmospheric World of Gra. This 40-minute interactive bedtime story is for everyone, offering a soothing narrative that unfolds like a bedtime story read by a loved one.

With meticulously crafted hand-drawn animations and poetic, metaphorical storytelling, **The Bear** transports players to an abstract world filled with tiny planets, fish that swim through space and lamps that bloom like flowers. As players guide the bear and the little one from planet to planet, they witness the growth of a profound friendship and encounter other endearing inhabitants of the World of Gra.

“We wanted to create more than just a game; we aimed to craft a calming and meaningful experience,” says Clara Deitmar, Founder of Mucks! Games. “With **The Bear**, we hope to touch hearts and inspire moments of calm in a world that often feels chaotic.”

As an interactive bedtime story, all aspects of the game are designed to be calming: The muted, calm colors become warmer and warmer as the game progresses. Whereas at the beginning you still had to solve small puzzles to get the bear out of its caves, later on you freely glide through wide open space. The game has an inverted difficulty curve: like the characters themselves, you feel increasingly lighter and can dive into the story and the dreamlike world.

**The Bear** will be available for iOS devices on April 16th. The app is free to download. The first chapter of the game is completely free. A single In-App Purchase of 2.99€ (EU) / 2.99\$ (US) (or its local equivalent) will unlock the full experience with five chapters.
